OKIOFFICE *1600*

OKIOFFICE *1600*

TECHNICAL FEATURES

Fax Features

- Modem speed - 33.6K bps with J-BIG compression
- Transmission speed - 3 seconds*
- Memory - 8MB/650 pages**
- Normal scanning speed - 2 seconds
- Greyscale - 256 levels
- Resolution - Normal, Fine, Ex Fine
- Autodialler - 55 one-touch and 145 speed-dial
- Broadcast locations - 230 locations (32 groups)
- Security features - passcode protection, security reception/transmission, Securemail TX, Batch TX, Broadcasting, departmental tracking, closed network, ITU sub-addressing
- Memory back-up - 72 hours

Optional Fax Features

- 8MB memory card - total 16MB/1330 pages
- 24MB memory card - total 32MB/2690 pages
- Dual line with JBIG coding/33.6K bps modem

Digital Copier Features

- Scanning method - Flatbed CCD 300dpi
- Printing method - Digital LED 600dpi
- Copy speed - 16 cpm
- Half-tone - 128 levels
- Contrast control - 5 levels
- ADF capacity - A4 50 sheets/A5 50 sheets
- By-pass - 50 sheets
- Paper cassette #1 - 500 x A4, Letter and Legal sheet capacity
- Document sorting - multi-copy up to 99 sets
- Reduction/enlargement - 50% to 200% with preset and 1% increments
- Copy quantity - 1 to 99 copies

Optional Copier Features

- Paper cassette #2 - 500 x A4, Letter and Legal sheet capacity
- 2 Bin Sorter

* Based on memory to memory transmission of ITU-T Test Document 1
** Based on ITU-T Test Document 1 stored at normal resolution
*** For maximum performance this option requires additional memory

Scanner Features

- Scan resolution - 400dpi
- Software - Class 1 compatible software
- Interface - Serial

Optional Printer Features

- Stand-alone printer or network connectivity
- Emulation - GDI, Windows™ 95/98, 9X, NT4, 2000 and Me
- Interface - parallel
- Network Interface Card
- PCL6 printer controller and TWAIN driver
- Mechanical page counter

Specifications/Operating Conditions

- Type - Digital fax, copier, flatbed scanner and 600dpi Digital LED printer
- Phone line - PSTN or equivalent
- Modem - 33,600 with automatic fallback to14,400, 12,000, 9,600, 7,200, 4,800 and 2,400 bps
- Compatibility - Group 3, ITU-T
- Transmission speed - 3 seconds per page*
  (2.5 seconds per page with 2nd telephone line option)
- Document feeder - 50 pages
- Resolution - Normal 203H x 98V dpi
  - Fine 203H x 196V dpi
  - ExFine 203H x 392V dpi
- Data compression - MH, MR, MMR, MSE, (J-BIG with 2nd Line option)
- Minimum original document - 120mm(W) x 100mm(H)
- Maximum original document - 306mm(W) x 900mm(H)
- Print width - A4: 206mm / B4: 251mm
- Scan width - 294 x 252mm selectable
- Recording paper - 500 x A4/B4/B5/A5 (upgradable to 1000 sheets)
- Dimensions - 532mm x 615mm x 387mm (W/D/H)
- Power - 230 volts AC = 10%, 50/60Hz
- Stand-by power consumption - 24.2w
- Weight - 32kg

Digital LED Multi-Function Fax, Copier and Printer

OKI

OKIOFFICE *1600*

Multi-Function Peripheral

Digital Multi-Function, Fax, Copier and Printer

As a fully-featured multi-functional device for workgroups in corporate environments, the OKIOFFICE *1600* brings improved levels of productivity to your document workflow and the opportunity for significant cost-savings by centralising four essential document applications.

With high specification faxing, scanning, copying and printing in just one networked device, the **OKIOFFICE** *1600* saves valuable space within the office. Equally important is its ability to manage the varied demands and often heavy workloads of the professional workgroup with ease.

The modular design means the **OKIOFFICE** *1600* can adapt to the changing needs of your workgroup, allowing you to enhance or customise its features to suit your individual requirements. Expandable memory, additional paper handling and convenient document processing features combine with the proven reliability of fast Digital LED printing.

Technology without compromise

The **OKIOFFICE** *1600* incorporates an advanced Digital LED page imaging system that delivers exceptional standards of quality, performance and reliability. And printing at speeds of up to 16 pages per minute, it means less time waiting for faxes to arrive and more time to work on their content.

Triple access

Enjoy true multi-functionality with the **OKIOFFICE** *1600*. Through "triple access" you can print, receive faxes and scan documents for your next transmission, simultaneosly.

More time-saving features that make faxing easy

The most important features and functions that you would demand from a stand-alone fax machine are incorporated to the **OKIOFFICE** *1600*.

Fast scanning
It's fast on scanning, handling an A4 document in just 2 seconds.

24MB of expandable memory
The **OKIOFFICE** *1600* can store up to 650 pages of incoming faxes with its standard memory and up to 2,690 pages with extra memory installed. Even memory-intensive faxes can be stored in memory, so there's no need to worry about paper running out if faxes arrive out of office hours or from different time zones.

Batch transmission
Batches of up to 40 documents addressed to the same location can also be stored and kept for later sequential transmission - making great savings on long-distance call charges.

Easy access with one-touch and speed dials
Frequently used numbers can be programmed easily, with 200 auto-dials split into 55 one-touch and 145 speed dials - and up to 230 broadcast locations. It's far more convenient than keying-in every digit, and you are less likely to dial a wrong number.

Memory Back up
If your power supply fails, the **OKIOFFICE** *1600* retains incoming and outgoing faxes in its memory for 72 hours until power is restored.

More capability means more flexibility

Much more than a fully-featured fax machine with high-speed Digital LED print technology, the **OKIOFFICE** *1600* brings more efficiency to the way you process your documents.

Copying at 16 pages per minute
A high speed scan of your original document will produce up to 99 copies at just 16 pages per minute.

Flatbed scanner
The **OKIOFFICE** *1600* allows you to scan and make copies from books, files and ledgers directly from the platen. This helps reduce the need for a dedicated photocopier.

Sharp text and clean images
A 600dpi resolution and 128-level half-toning produces quality reproductions of photographs, pictures and illustrations. With user-selectable contrast control and the ability to reduce by 50% or enlarge by 200% at 1% increments, you are assured of fine control over your final copies.

Paper handling
The paper-handling system takes a full ream of paper in its standard 500 sheet cassette. This can be increased to 1,000 sheets with a second tray. Output copies can also be sorted electronically, with up to 99 originals collated with ease.

The hub of your document communications

The modular design of the **OKIOFFICE** *1600* allows you to add a PC/Network printing module so it can communicate directly with your PC or even over a Local Area Network. This helps to reduce costs further by eliminating the need for personal desktop printers for each individual in a workgroup.

Output is high quality: the same 600dpi resolution as the fax and the copier and it's just as fast, reaching speeds of 16 pages a minute. It can be fully integrated to allow you to fax and scan documents directly from your Windows™ desktop, using any Class 1 compatible PC fax software.

Major Applications

All offices need to fax, copy and print and the **OKIOFFICE** *1600* brings these functions together in a solution that often provides a better answer than the individual machines themselves.

OKIOFFICE *1600* highlights

- 8MB standard memory
- Total 200 auto-dialler
- 16 copies per minute digital copying
- Copy, fax and scan from platen glass
- Upgradable to 16 pages per minute page printer and network printer.
